

Your Honor it has come to my attention that the U.S. Attorney's Office released previously sealed documents to the Baltimore Sun. Regarding the Federal Investigation of the G.T.T.F. To my understanding the Sun thought that these documents should be public information so the real story behind the G.T.T.F. would become transparent to their readers. I think that it is fair that I receive the the same documents that the U.S. Attorney's office released to the Baltimore Sun. I truly believe that in these documents there is pertinent information regarding my innocence involving any conspiracy and racketeering crimes. Your Honor I'm currently without any legal representation at this time, outside of my appeal. I'm unable to afford an attorney after my first trial drained me financially. Respectfully, I request that the U.S. Attorney's office be ordered to provide to me a copy of the same unsealed documents, in their entirety, that were released to the Sun. I would like to examine them for any evidence that would show my innocence.

Thank You for your time Your Honor.
